

Other Services

Fuel Injection Cleaning
Increases fuel economy and restores performance.

This service helps clean deposits, effectively out-performs fuel additives and will not harm sensors or catalytic converters. Helps remove carbon buildup to control the release of oxides into the environment. Includes: chemically purge fuel rail and fuel injectors, add one bottle fuel additive.

Recommended interval: 15,000 - 30,000 miles

Differential & Manual Transmission Service
With fluid change to ensure proper operation.

Service helps remove contaminants, sludge build-up and metal particles; extend transmission and axle life, increase fuel economy and keep your vehicle within warranty standards. Includes: evacuate each unit — manual transmission, transfer case and differential; refill with recommended quantity of specified lubricant.

Recommended interval: 15,000 - 30,000 miles

Automatic Transmission Filter Service
With fluid change to ensure proper performance.

Service helps clean contaminants from system, improve transmission performance, extend transmission life, avoid costly repairs and keep vehicle within warranty standards. Includes: replace filter, pan gasket and transmission fluid in pan; refill with recommended quantity of proper transmission lubricant.

Recommended interval: 15,000 - 30,000 miles

Automatic Transmission Fluid Exchange
Replaces 99.6% of used transmission fluid.

The automatic transmission fluid machine flushes and replaces transmission fluid from not only the transmission pan but the torque converter and transmission gear housing as well. Performing this service with the Automatic Transmission Service guarantees the most thorough cleaning.

Recommended interval: 15,000 - 30,000 miles

Air Filter

The air filter traps airborne dirt, sand and other particles preventing them from entering and damaging your engine. A clean air filter provides proper air/fuel ratio for easier starts, increased horsepower and improved gas mileage.

Service includes: Replace with new air filter element.

Extras

- Wiper Blades
- Air Filters
- Breather Element
- PCV Valves
- Headlight Bulbs
- Serpentine Belts
- Fuel Filters
